

Minutes
Undergraduate Academic Affairs Subcommittee
Thursday, December 8th, 2022

Members in Attendance: L. Dorsey, Chair, E. Gockel-Blessing, S. Sell, E. Crowell, J. Rust, D. Pike., S. Steadman, J. Haugen., G. Barker, L. McLaughlin, S. Tyuse, M. Toups.

Guests: None

Absent: Father M. Rozier

Call to Order: Dr. Dorsey called the meeting to order at 9:05 am.

The Approval of Minutes from the November 10, 2022, will be distributed at the January 12th, 2023, UAAC Subcommittee Meeting

Old Business:

Bachelor of Science Security & Strategic Intelligence

Shawn Steadman The School of Professional Studies Bachelor of Science Security & Strategic Intelligence has proposed changes to BS SSI Degree Program (Eliminate concentrations/tracks/eliminate 2 CIS courses). There are currently no students enrolled in the track as it is redundant with the degree. The other tracks include Business Continuity and Global Corporate Security – these both remain active.

Deleting track/concentration requirement for degree program. Currently students are required to choose concentration of Strategic Intelligence, Global Corporate Security, or Business Continuity. No students currently enrolled in Strategic Intelligence track as it is redundant with the degree.

We propose eliminating the concentration. Students may still pursue minors or bundled certificates as part of their degree program (this aligns with the other degree program in SPS). We are proposing to eliminate 2 required CIS courses and substituting SSI courses. Two additional CIS courses that were part of the old curriculum are still required but have now moved to the core.

The points of interest were reviewed and the committee was satisfied with the revisions made. A motion was made by Father Rozier and seconded by Debbie Pike to approve The School of Professional Studies Bachelor of Science Security & Strategic Intelligence BS SSI Degree Program (Eliminate concentrations/tracks/eliminate 2 CIS courses).

- The committee unanimously approved the Bachelor of science Security & Strategic Intelligence changes.

New Business:

Academic Program Change Reports

The Department of Physical Therapy and Athletic Training has developed a new track for the bachelor's in Science in Exercise Science (BSES) Program – Exercise and Wellness track. The other tracks include Pre-PT and Pre-AT, these tracks are unchanged.
